

Dear Artist, Photographer, and Creative Mind,

Village Health Project – a registered 501(c)(3) nonprofit run by students at the University of Wisconsin-Madison – is inviting you to contribute to our mission to provide education, improved sanitation, nutrition and empowerment to our partner-community in Lweza, Uganda.

Our organization coordinates several fundraising activities throughout the year and has for the past three years ran Art for Clean Water, an art auction hosted at a local venue in early December. This year's generous host is yet to be determined, however we would like to get a jump start on collecting art!!

In order for this fundraiser to be successful, we are asking local artists to donate pieces to be sold in the auction, or photographs to be used for card making. Donated pieces can be of any medium or size. The deadline for submissions is **November 22<sup>nd</sup>**. Photographs can be emailed directly to us at [vhproject@gmail.com](mailto:vhproject@gmail.com).

While you would not receive any monetary compensation for your time or materials, your finished work would be used to support our work in Uganda as well as give you recognition within the local community. If you donate a piece, we invite you to include a description, as well as your contact information to keep on display.

If you would like to assist us with this exciting event, we would greatly appreciate it! Please contact us as soon as possible. Arrangements can be made for either pick-up or drop-off of pieces.

If you do not have art you would like to donate, we would love for you to join us at the event and will keep you updated as more information is available! For more information on VHP and the projects we support, check out our website at [www.villagehealthproject.org](http://www.villagehealthproject.org).

Thank you for your consideration. We hope to hear from you soon!

Sincerely,

The VHP Team

Village Health Project •333 East Campus Mall• Student Activity Center, Room 3207•Madison, WI 53715
